SUMMARY

I am a BSc CSIT student passionate about UI/UX and Graphic Design, creating intuitive digital experiences and visually engaging designs. I have hands-on experience using Figma, Canva, Photoshop, and Illustrator to design modern interfaces, branding concepts, and digital assets. I enjoy transforming ideas into meaningful visual experiences and am eager to contribute my creativity while continuing to grow as a designer.

FEATURED PROJECTS

Nexora Biopharma Design [nexora.design](#)

- Created an interface bridging the gap between cutting-edge medical research and public accessibility.

Mobile App UI Design [mobileappui.design](#)

- A foundational design system featuring reusable components and scalable styles for mobile apps, the system provides a scalable set of components, typography , and color palettes.

Color Harmony Generator [colorharmony.com](#)

- A fast, elegant web application for generating beautiful and precise color harmony palettes from a single base color. No signups, no external APIs, just instantly shareable palettes.

Graphic Design Collection [design.gallery](#)

- A collection of personal graphic design projects including social media creatives, posters, branding concepts, and marketing materials, demonstrating skills in visual hierarchy, typography, composition, and branding.
